Why we exist

JEE isn't a test of how much you've read. It's a test of how precisely you perform under pressure. Most prep ignores that. **We engineered for it.**

MISSION

Build the most advanced adaptive prep platform ever made — one that maps every student's mind in real time and engineers the fastest possible path to mastery. Not another content library. A guidance system.

VISION

A world where any student with ambition can reach escape velocity — where the ceiling on a rank is talent and effort, never access to great teaching or the right feedback at the right moment.

POSITIONING STATEMENT

For serious JEE aspirants chasing a top rank, **Orange Nelumbo** is the adaptive prep platform that behaves like mission control — reading your performance in real time, targeting exactly what's holding you back, and engineering the shortest path from where you are to mastery. We don't sell content. We accelerate outcomes.

Personality

Orange Nelumbo is the engineer in the room who is also your biggest believer. Precise enough to trust with your rank, human enough to keep you going. Five traits govern every expression.

Precise

Engineered, exact, data-backed. Every claim has a number behind it. We measure what matters and say it straight.

Adaptive

Never one-size-fits-all. The platform bends to the student; so does the brand. Responsive, intelligent, alive.

Relentless

Forward motion, always. We push, iterate and never coast. The energy of a launch, not a library.

Visionary

We think in decades and light-years. Ambitious about what learning can be — and unafraid to look futuristic.

Human

Behind the telemetry is a student who is tired, hopeful and betting their future on us. We are warm, encouraging and on their side — technology in service of a person, never the other way around.

Voice & tone

We speak like mission control: calm, exact, propulsive. Confidence from precision, not volume. Lead with the outcome, back it with a number, and never talk down to a 16-year-old betting their future.

WE SAY	WE DON'T
"Know exactly what's holding your rank back."	"Unlock your true potential with our courses."
"Adaptive to you. Down to the concept."	"India's #1 most trusted JEE mega-course!"
"In pursuit of mastery. Engineered for the top."	"Crack JEE easily with our simple tricks!!!"

NAMING

Always **Orange Nelumbo** (two words).
Never "OrangeNelumbo", "ON" in user-facing copy, or lowercase. The mark and wordmark are never restyled.

MECHANICS

Sentence case in prose; mono UPPERCASE for kickers and telemetry. Use real numbers, ranks and units. Say "JEE Main" / "JEE Advanced" correctly. One exclamation per page, maximum.

The mark

A faceted lotus rising through an orbital ring — the Nelumbo lineage, re-engineered for a company that thinks in trajectories. The lotus is mastery; the orbit is momentum; the ignition gradient is the energy that gets you there.

ORANGE NELUMBO

A THE SYMBOL

Five faceted petals in the ignition gradient, a launch cradle beneath, an orbital ring with a single satellite. Never redraw, recolour, or separate the ring from the lotus.

B THE WORDMARK

"ORANGE NELUMBO" in Space Grotesk Bold caps, **+0.02em** tracking. The mark's height is ~2.6× the cap-height of the wordmark — keep this ratio locked.

Variations

Five approved forms. Choose by space and background; never invent new arrangements.

ORANGE NELUMBO

HORIZONTAL · PRIMARY

ORANGE NELUMBO

STACKED · SQUARE SPACES

SYMBOL · AVATARS & FAVICONS

ORANGE NELUMBO

REVERSED · KNOCKOUT ON ORANGE

ORANGE NELUMBO

ORANGE NELUMBO

On light backgrounds use the full-colour mark with charcoal type. Mono (knockout white) is for single-colour print, engraving and low-res only.

Clearspace & size

Give the mark vacuum. The exclusion zone equals **x** — the height of the orbital ring — on every side. Nothing enters it.

MINIMUM — LOCKUP

Digital **128 px** wide · Print **32 mm**. Below this, switch to the symbol.

MINIMUM — SYMBOL

Digital **28 px** · Print **9 mm**. Used for favicons and app icons.

Misuse

The mark is fixed artwork. These six mistakes break it — never do any of them.

Don't stretch or condense

Don't recolour the gradient

Don't rotate or tilt

Don't place on clashing colour

Don't fade or add effects

Don't reset the wordmark in another font

Core palette

Carbon is the cockpit; ignition orange is the thrust. The dark holds everything calm and precise so a single burst of orange reads as pure energy.

Carbon

HEX #161418
RGB 22 · 20 · 24
CMYK 71 · 71 · 60 · 71

Primary — the default surface.

Ignition Orange

HEX #FF5A1F
RGB 255 · 90 · 31
CMYK 0 · 76 · 92 · 0

Accent — CTAs, the mark, energy.

Obsidian

HEX #0E0D10
RGB 14 · 13 · 16
CMYK 74 · 73 · 63 · 82

Depth — heroes & section bands.

Ember

HEX #FF8A3D
RGB 255 · 138 · 61
CMYK 0 · 56 · 79 · 0

Gradient top & hover glow.

Extended & functional

Support tones build depth between the near-blacks. Signal Cyan is the single cool accent — reserved for data and telemetry, never marketing. State colours cover UI feedback only.

SUPPORT TONES

Graphite #1E1B20	Steel #2A262E	Titanium #C7C5CC	Signal Cyan #3DE0D0

FUNCTIONAL — STATE COLOURS

Success #3DE08A · correct	Error #E0483C · wrong	Warning #F6C344 · review

State & signal colours are for UI and data only. Ignition orange is the one accent that markets — never dilute it with a rainbow.

Ratios & access

Aim for roughly 80 / 15 / 5 — carbon dominates, white carries text, orange ignites. Orange is intense; a little goes a long way. Always meet WCAG AA.

APPROVED TEXT PAIRINGS

White on carbon

15.8 : 1 • AAA ✓

Ember on obsidian

6.1 : 1 • AA ✓

Ink on orange

7.2 : 1 • AAA ✓

Titanium on carbon

9.4 : 1 • AAA ✓ (body)

AVOID

White on orange

2.1 : 1 • fails ✕

Small orange body text

4.0 : 1 • large only

On orange grounds always use near-black ink, never white. Orange text works for large headings on dark; for body, use white or titanium.

Typefaces

Three families, each with one job. A geometric grotesque for display, a clean workhorse for text, and a mono for telemetry, labels and data.

Aa

Space Grotesk

DISPLAY & HEADLINES

Weights 400–700. The wordmark, page titles and hero statements. Geometric, engineered, a little futuristic.

Aa

Manrope

BODY & UI

400–800. Body copy, buttons, captions.

Aa

JetBrains Mono

TELEMETRY, LABELS & DATA

400–600. Uppercase kickers, "// NN" markers, numbers.

Fallback stack: "Space Grotesk", system-ui, sans-serif · "Manrope", system-ui, sans-serif · "JetBrains Mono", ui-monospace, monospace.

Scale & hierarchy

A 1.25 modular scale. Display & headings in Space Grotesk, everything functional in Manrope, every kicker in JetBrains Mono.

DISPLAY · 56/56

Reach escape velocity

H1 · 34/38

Adaptive down to the concept

H2 · 24/30

Engineered for the top rank

KICKER · 11 · .26EM

12 — TELEMETRY

BODY · 16/26

The platform reads your performance in real time and targets exactly what is holding your rank back.

DATA · 13 MONO

RANK ▲ 4,120 → 890 · ACCURACY 78.4%

Minimums: never set body below 16px on web. Display tracking stays tight (-0.02em); body stays at default. Mono is always uppercase for labels, with ≥0.1em tracking. Numbers & ranks always in JetBrains Mono.

Type in use

DO

01 — ADAPTIVE ENGINE

Know your weak point.

Mono kicker, Space Grotesk headline, Manrope body. Clear three-tier hierarchy.

DON'T

Know your weak point.

Don't swap the roles — body in Space Grotesk, headline in Manrope flattens the hierarchy.

DO

RANK 4120 → 890

Data in mono

DON'T

Outlined, shadowed, stretched type

Rule of thumb — one Space Grotesk weight per layout, mono only for labels and data, and never letterspace Manrope body text. Let the ignition gradient and tight tracking carry the character.

Icons & art

Icons are precise monoline drawings. Illustration is dark-canvas schematic art — orbital rings, trajectories, molecular lattices and velocity streaks, lit by a single ignition glow.

ICON STYLE — 1.6PX STROKE, ORANGE, ROUNDED JOINS

Consistent — one 1.6px stroke, geometric, 24px grid, rounded caps. Orange on dark, ink on orange.

Avoid — filled glyphs, multicolour icons, emoji, drop shadows, mixed stroke weights.

ILLUSTRATION — SCHEMATIC / TELEMETRY

Schematic art lives on obsidian, drawn in thin orange line with one glowing node. Orbits, trajectories, lattices — the language of engineering, never clip-art.

Imagery

Two streams: real students in focused motion, and the machinery of ambition — rockets, circuitry, optics, hypercars, telescopes. All graded into carbon with a single ignition light. Never bright, generic classroom stock.

LOOK FOR

- Focused intensity, real motion
- Engineering & cosmos — rockets, optics, circuits
- Deep shadow, one ignition light source
- Young, diverse, ambitious Indian faces

AVOID

- Bright, flat classroom stock
- Staged toppers with trophies & garlands
- Cool blue or grey casts
- Cluttered, busy compositions

Grade — crush shadows to carbon and let one warm ignition light define the subject. A duotone (obsidian → ignition) is approved for full-bleed heroes and ad backgrounds.

Layout & grid

Three devices give every surface the mission-control rhythm: the numbered mono kicker, a 12-column dark field, and one ignition moment.

A Mono kicker — “// NN — Section”. Numbered, orange, wide tracking. Opens every block.

B Content field — 12 columns, 24px gutter, ~56px outer margin on carbon.

C Ignition moment — one gradient band, glow or CTA per view.

Spacing on an **8px baseline**. Cards use a 1px **orange-22%** hairline on graphite; square corners throughout.

Orbit & grid motif — faint concentric rings and a fine technical grid are signature background textures on hero surfaces. Keep them low-contrast; they set the scene, they never compete with content.

The social system

One identity across every platform. Same avatar, same voice, same carbon-and-ignition world. Handle is **@orangenelumbo** everywhere.

X

LINKEDIN

INSTAGRAM

YOUTUBE

TIKTOK

Avatar — the orbital lotus mark, centred, on obsidian (or knockout on the gradient for Instagram). Never the full wordmark; it's illegible small.

FOUR CONTENT PILLARS

Concept — one JEE idea, made intuitive

Strategy — exam tactics & the data behind them

Tech — how the adaptive engine works

Proof — rank jumps & student stories

CAPTION FORMULA

HOOK — a sharp, precise line.

VALUE — one idea, taught cleanly.

CTA — start free / see your map.

TAGS — 2-4, never a wall.

We analysed 1.2M solved problems. The students who improved fastest all did one counter-intuitive thing. Carousel ↓

THE DATA

1.2M problems.

DOCUMENT CAROUSEL · 1080×1350

ASSET SPECS

Banner **1128×191**

Logo **300×300**

Single image **1200×627**

Carousel **1080×1350**

tone

The credibility room — learning science, the engine, outcomes and data. For parents, educators & press. Document carousels for teaching; one idea per slide.

Instagram

FEED · 1080 × 1080

Alternate carbon, gradient and schematic tiles so the grid reads as one system. Gradient tiles are the loud beats — use sparingly.

STORY / REEL · 1080 × 1920

Dashed = safe zone. Keep text & CTA clear of top 250px / bottom 320px.

Reel covers use the 1080×1920 frame with a single Space Grotesk line + orange keyword; design the cover so it also reads clean as a 1:1 grid crop.

YouTube

CHANNEL ART · 2560 × 1440

THUMBNAILS · 1280 × 720

ASSET SPECS

Channel art **2560×1440**

TV-safe **1546×423**

Thumbnail **1280×720**

THUMBNAIL RULES

Max **four** words. One Space Grotesk headline, obsidian ground, one ignition element, mark badge. Must read at 210px wide.

TikTok & Shorts

Tinted zones = UI overlap. Keep key text out of the right rail (~120px) & bottom caption (~320px).

ASSET SPECS

Frame **1080×1920** · 9:16

Right-rail safe **≥120px**

Bottom safe **≥320px**

Cover **1080×1920**

TONE SHIFT

Loosest channel — fast talking-head explainers, on-screen Space Grotesk captions, one concept per clip. Energetic and awe-driven ("space, speed, machines") but never cringe or clickbait.

CAPTIONS

Always burn in captions — orange keyword highlights on white text, sound-off readable.

Social ads

Performance creative still behaves. One offer, one headline, one CTA — carbon canvas, ignited by a single orange burst.

Do — keep ≤20% of the frame as text, one CTA, one ignition element, and a visible mark or wordmark.

Don't — stack multiple offers, use state colours decoratively, or promise a guaranteed rank / selection.

Blog & banners

Every banner pairs an obsidian ground with a single Space Grotesk headline, a mono category and one ignition accent.

Infographics

Data is the product's proof. Charts read like telemetry — orange and cyan on obsidian, mono labels, one story each.

JEE MAIN · MARKS VS RANK

Where marks matter

 orangeneelumbo.com

CHART PALETTE ORDER

Ignition → Ember → Signal Cyan → Steel. Highlight the hero figure in orange; everything else recedes.

ANATOMY

Mono kicker → one chart → orange on the hero number → mark + source at the foot. Always cite the source.

FORMATS

Square 1080² for social · Portrait 1080×1350 for carousels · Full-width for blog & PDF.

Email & newsletter

SPECS

Body width **600px**

Header logo **180px**

CTA gradient, 44px tall

Min body **15px**

RULES

Dark obsidian body works in email (test clients). One gradient CTA. Personalise line one with real telemetry. Arial fallback for both fonts.

SUBJECT LINES

Precise & personal: "Your projected AIR just moved."
Sentence case, no emoji spam, one idea.

Presentations

16:9 decks in the mission-control world. Three masters: title, content, section divider.

TITLE SLIDE

CONTENT SLIDE

SECTION DIVIDER

16:9 · 1920×1080. Body min 18pt. One idea per slide. Footer with mark + slide number. Gradient dividers for impact.

Merch & swag

Precision hardware energy. Carbon and ignition only; the mark or wordmark leads, the mantra supports.

Production — single-colour ignition embroidery on carbon, or knockout on the gradient. Keep the full clearspace and one mark per item — let the mantra do the rest.

The message stack

Approved, copy-paste language at every length. Use these verbatim — don't rewrite the core lines.

TAGLINE • 4 WORDS

In pursuit of mastery.

RALLY CRY • 5 WORDS

Know exactly what's holding you back.

ONE-LINER • ≤ 20 WORDS

The adaptive JEE platform that reads your performance in real time and engineers the shortest path to your rank.

BOILERPLATE • 50 WORDS

Orange Nelumbo is an adaptive JEE preparation platform built like mission control. It maps each student's performance in real time, targets exactly what is holding their rank back, and engineers the fastest path to mastery. Not a content library — a guidance system. We measure success by rank improvement, not hours logged.

ELEVATOR PITCH • SPOKEN, ~30 SEC

"Most JEE prep throws the same content at everyone and hopes. We built the opposite — a system that reads how you actually perform, finds the exact concepts capping your rank, and rebuilds your plan every day around them. It's like having a coach who never sleeps and never guesses. In pursuit of mastery."

Who we speak to

Three audiences, one promise. Lead with the angle that fits — never change the core promise.

The aspirant

Class 11–12, chasing a top rank. **Angle** — precision & edge. "Know exactly what's capping your rank."
Lead — adaptive engine, rank map, targeted practice.

The dropper

Repeating the year, needs a smarter approach. **Angle** — diagnosis & efficiency. "Last year you studied hard. This year, study right." **Lead** — diagnostics, weak-link targeting, mocks.

The parent

Funding it, wants proof it works. **Angle** — transparency & science. "See exactly where their time goes and why." **Lead** — progress telemetry, the learning science, outcomes.

PROOF POINTS — CITE THESE, NOT VAGUE CLAIMS

Real-time adaptive engine, concept-level

Full-length JEE Main & Advanced mocks

Projected AIR updated every session

Built for India — JEE syllabus, current pattern

Copy bank

Pre-approved lines. Pick, don't invent. Keep the precise, propulsive register throughout.

HEADLINES

- Know exactly what's holding your rank back.
- In pursuit of mastery.
- Prep that adapts down to the concept.
- Volume is a vanity metric.
- Engineered for the top rank.
- Reach escape velocity.
- Study right, not just hard.

EMAIL SUBJECT LINES

- Your projected AIR just moved.
- The one concept capping your rank.
- You're solving the wrong problems.
- 90 days out. Here's your plan.
- The mock is live. Are you?

CALLS TO ACTION — IN PRIORITY ORDER

Start free trial

© 2026 ORANGE NELUMBO

IN PURSUIT OF MASTERY.

Header is sticky, translucent obsidian with blur, 74px tall · footer on obsidian with mono-orange column heads · promo strip only for live offers, ignition gradient, dismissible.

Charts & data

Data is the product's signature — charts should read like flight telemetry. Ignition and cyan on obsidian, mono labels, one message each.

Motion

Motion is precision in flight — smooth accelerations, orbital paths, ignition glows. It communicates that the system is alive and computing, and it always serves comprehension.

Propulsive

Elements accelerate in and settle — ease-out curves, never linear. The feel of thrust, then lock.

Orbital

Loaders and accents move on arcs and rings, not straight lines. The mark’s orbit is the signature loop.

Ignition-lit

Glow blooms on hover and on key state changes — the single warm light in a dark cockpit.

Accessible

Honour *prefers-reduced-motion* — replace orbital moves and glows with simple fades.

TIMING TOKENS

Hover / press	140ms · ease-out · brighten + glow
Reveal on scroll	600ms · ease-out · fade + 20px rise
Data count-up	900ms · ease-out · numbers roll to value
Standard easing	cubic-bezier(.16, 1, .3, 1)

Never — gratuitous parallax on text, motion longer than 400ms for UI feedback, or autoplay that can’t be paused. Futuristic ≠ chaotic.

Cadence & mix

A sustainable weekly rhythm. Teach four times for every one time you sell — the 80/20 of content.

CHANNEL	CADENCE	PRIMARY FORMAT
X / Twitter	5–7 / week	Hot takes, myth-busts, threads
LinkedIn	3 / week	Data carousels, science, outcomes
Instagram	4 / week + stories	Concept tiles, reels, rank jumps
YouTube	1 / week	Concept explainers, walkthroughs
TikTok / Shorts	3–5 / week	60-sec concepts, awe hooks

CONTENT MIX — EVERY WEEK

40% · Concept	30% · Strategy	20% · Proof	10% · Sell
---------------	----------------	-------------	------------

Community & replies

In comments and DMs we're mission control on comms: precise, encouraging, never defensive or hype. There's a real, anxious teenager on the other end.

REPLY LIKE THIS

"Totally normal to feel behind in Physics right now. Start with Rotational Motion — it's high-weight and fixable fast. Want the 2-week plan we'd build for you?"

NOT LIKE THIS

"Just join our course and your rank is guaranteed!! 🚀🔥 Link in bio, don't miss out!!!"

RESPONSE PRINCIPLES

- **Help first, sell never** — answer the real question before mentioning the product.
- **Be specific & calm** — one concrete next step; never fuel exam panic.
- **Encourage honestly** — acknowledge the struggle, then give a plan.
- **Speed matters** — reply within 4 working hours on weekdays.

Escalation & care — refunds, complaints and legal go to help@orangenelumbo.com. If a student signals real distress or burnout, respond with empathy and point to support resources — never a sales link.

Inclusive by default

Students study on cheap phones, on patchy data, late at night. The dark cockpit must stay legible everywhere. Target WCAG 2.1 AA.

Contrast

Body $\geq 4.5:1$ on carbon. Never white on orange, never small orange body on dark. Don't rely on colour alone — pair state with a label.

Focus & targets

Visible 2px orange focus ring on every interactive element. Touch targets $\geq 44 \times 44$ px.

Text & reading

Min 16px body. Line length 60–75 chars. Never lock zoom. Mono only for short labels & data — never long body.

Motion & media

Honour reduced-motion (no orbital sweeps), caption all video, never autoplay sound, always offer a skip.

Inclusive language — "students" and "aspirants", varied real Indian names (Aarav, Diya, Ishaan, Meera). Speak to all of India without assuming gender, board, city or coaching background. Keep English simple; never shame a student's current level.

JEE & NTA

We prepare students for JEE; we are an independent platform, not affiliated with the NTA, the IITs or JEE Apex Board. Get this right on every asset — it protects the business.

REQUIRED DISCLAIMER — FOOTERS, ADS, COURSE PAGES

"Orange Nelumbo is an independent education platform and is not affiliated with, endorsed by, or sponsored by the National Testing Agency (NTA), the JEE Apex Board, or the IITs. JEE, JEE Main and JEE Advanced are their respective owners' marks."

NO OUTCOME GUARANTEES

Never promise a rank, a score, or admission. "Projected AIR" is always labelled a model estimate, not a prediction. Student results are illustrative, not typical or guaranteed.

DO

- Say "JEE prep", "JEE Main", "JEE Advanced"
- Label projected AIR as a model estimate
- Keep the disclaimer visible where we promote

DON'T

- Imply NTA / IIT endorsement or tie-up
- Use NTA, JEE or IIT logos or crests
- Guarantee a rank, selection or score
- Use a real topper's name/photo without consent

When in doubt, route the asset to legal before publishing. For minors, follow data-consent and advertising rules; parental consent flows apply on sign-up.

Pricing & offers

Be transparent about money — especially for families making a real investment. Every price and promo follows the same rules.

Price format	₹ with comma thousands, "/year" — inclusive of all taxes
Tax line	"Final price is inclusive of all taxes." Shown at checkout.
Coupons	Code in CAPS. State the % and a real end date, not "limited time".
Free trial	"Free trial — no card required." *T&C apply, linked.
Refunds	Link the Refund Policy on every paid surface.

Show the value. Always pair price with what's included (engine, mocks, mentoring) — never a bare number.

No false scarcity. No fake countdowns or "only 2 seats" unless literally true.

Payments — show the secure-checkout mark: "Your payment information is encrypted and secure." Offer EMI clearly where available.

Partner lockups

When we partner — a school, a scholarship body, a creator — the two logos sit as equals, divided by an ignition hairline.

ORANGE NELUMBO

PARTNER LOGO

RULES

- Equal visual weight — match cap-heights
- Divider = 1px ignition hairline, full clearspace
- Lead with Orange Nelumbo when we host
- Use "in partnership with" where space is tight

NEVER

- Merge, overlap or lock the marks together
- Recolour a partner logo to orange
- Co-brand without a signed agreement
- Imply NTA or an IIT is a partner

Assets & files

Where things live, how they're named, and who signs off — so the system stays consistent as the team grows.

FORMATS

- **SVG** — mark, icons (web)
- **PNG** — mark on raster, social

LOGO

ORANGE NELUMBO

Clearspace = ring height. Never restyle, recolour or stretch.
Symbol-only below 128px.

VOICE

Precise, adaptive, relentless, human.

Mission control: calm, exact, propulsive. Back claims with numbers.
One ignition CTA — "Start free trial".

If you remember one thing — we're the mission control for a top rank. Carbon is the cockpit, ignition orange is the thrust, data is the proof. Precise, futuristic, and always on the student's side. In pursuit of mastery.

The colour library

62 brand-tuned colours across eight families, then 25 ready-to-use combinations for content. Ignition orange stays the hero; everything here is chosen to sit beside it.

Core & warm families

Neutrals carry every layout; the ignition and warm families are the brand voice. Reach for these first.

NEUTRALS — SURFACES, TEXT & SCAFFOLD

Obsidian #0E0D10	Carbon #161418	Graphite #1E1B20	Steel #2A262E	Slate #3A3640	Ash #55505C
Pewter #736E7C	Titanium #C7C5CC	Silver #DAD8DE	Fog #E6E4EA	Cream #F1EFE8	Paper #FAF8F2

IGNITION — THE HERO WARM RAMP

Char #5E2008	Mahogany #8A2F0A	Rust #B23C0C	Burnt #C7440E	Ignition #FF5A1F	Flare #FF6A2E
Ember #FF8A3D	Tangerine #FF9F52	Amber #FFB020	Apricot #FFC24D	Peach #FFD285	Sand #F5D9A8

WARM ACCENTS — REDS, CLAYS & DEEP BROWNS

Coral #FF6B5B	Salmon #FF8A6B	Signal Red #E0403C	Crimson #C4342A	Clay #C4633E	Terracotta #D97845
Cocoa #5C3A24	Espresso #3A2418				

Accent families

Cool and vivid accents for data, categories and variety. Use sparingly — one accent family per layout, always beside a neutral.

CYAN & TEAL — MOTION & DATA

Velocity #3DE0D0	Aqua #5BD3E0	Teal #2FB8AC	Pine #1E8A80	Ocean #145C55	Ice #C8F0EC
---------------------	-----------------	-----------------	-----------------	------------------	----------------

GREEN & LIME — SUCCESS & GROWTH

Q-Lime #A0E85B	Lime #8ACF35	Fern #5BA83C	Moss #3A6B28	Success #3DE08A	Mint #7CE0A0
-------------------	-----------------	-----------------	-----------------	--------------------	-----------------

BLUE — TRUST & DEPTH

Ion Blue #6BA8FF	Sky #5BC8FF	Azure #308AE0	Cobalt #2A5FC4	Midnight #1A2C5C	Frost #B0D0FF
---------------------	----------------	------------------	-------------------	---------------------	------------------

VIOLET & BLUSH — FEATURE ACCENTS

Prism #B48CFF	Amethyst #9B8CFF	Plum #7A5CC4	Indigo #4A3C8A	Orchid #C88CFF	Blush #F5C6B0
------------------	---------------------	-----------------	-------------------	-------------------	------------------

GOLD & WARM NEUTRALS — HIGHLIGHT & PAPER

Amber Gold #FFC24D	Gold #F6B01E	Honey #E8A317	Brass #C4922A	Wheat #EBD6B0	Linen #F3E9D6
-----------------------	-----------------	------------------	------------------	------------------	------------------

25 combinations

Curated 2–3 colour sets for content — decks, posts, cards, banners. Each is safe to use as-is; the first colour leads, the rest support.

01 • Ignition Core

Primary CTA on dark

02 • Ignition Paper

CTA on light layouts

03 • Ember Trio

Warm hero block

04 • Sunset

Rich editorial header

05 • Signature

Brand + data accent

06 • Gold Night

13 • Quantum

Energetic tech

14 • Velocity Dark

Data on obsidian

15 • Terracotta

Organic warmth

16 • Ignition Sky

Bright, open

17 • Apricot Plum

Playful contrast

18 • Heritage

Classic warm + cream

19 • Signal

Alert + neutral

20 • Peach Teal

Fresh pairing

21 • Ember Mint

Warm + fresh

22 • Deep Sea Gold

Refined contrast

23 • Kiln

Toasty neutral trio

24 • Ignition Amethyst

Feature spotlight

25 • Mono-Orange

All-brand ramp

Usage — pick one combination per piece and hold it. Lead with the first colour, keep neutrals dominant (~70%), and never mix two vivid accent families in one layout. Ignition orange may join any set.

ORANGE NELUMBO

In pursuit of mastery.
